

JAMA *The Journal of the American Medical Association* reveals
89% of Blood Pressure Drugs Have LITTLE to NO Scientific Proof they work!

NIH *National Institutes of Health* reports
commonly prescribed Blood pressure drugs don't work for 53% of patients who take them...

...so before you play prescription roulette with your blood pressure drugs – you've got to ask yourself one question...

Do I feel lucky?

Do you feel lucky... Punk?

Well... Do Ya?

INSIDE: A safe, RISK-FREE way to manage your blood pressure that's **GUARANTEED to WORK – or You Pay Nothing!**

~~140/90~~ ~~120/80~~

The New "Normal"

coming soon

115/75

(As if 120/80 wasn't HARD ENOUGH to achieve!)

INSIDE: Discover Nature's Blood Pressure Formula to:
